

if you hunger  
strike back with those caged in a cell  
choking on dusty air  
living hell  
26<sup>th</sup> and cal  
afghanistan, guantanamo, cook county to gaza  
testify adnan latif  
no need for an afterlife  
with the predicted drama of demons, spirits and ghouls  
this brother had prison guards with electric prods and a cia book of rules  
fuck the generals and decorated fools  
real proper killers in a coat and tie, bars and stripes  
murderers math  
the x and the y  
why to snatch a life unprovoked from a k..k..kill list?  
it's a zero sum  
minus the bankrupt attempt to justify  
which of these unfortunately exotic muslims must die?  
quite apparently and historically, some militants are more equal than others  
at least when they are needed, convenient and take orders  
it's a cowards' composition  
mcnamara and brennan  
executioners eyes with a callous disposition  
a matrix still dominated by red hands, old school whites and uncle tom blues  
hey yo john yoo, isn't the old sound just like the new?  
I know another john named burge  
he might like to have tea with you  
signature strike sign offs  
moral suicide by executive order, indefinite detention, targeted assassinations, torture  
nothing more than a five sided state sanctioned terrorist cell  
with security fences and a stolen border  
espousing every unethical excuse for unproven exceptionalism  
propagating profitable and patriotic anti-intellectualism  
a pledge of allegiance for parrots and yes men  
half men who excel in snapping necks and turning insider trading tricks  
punk ass pricks waving flaccid fissile material for lack of endowment but much investment in  
the department of dicks  
hands on a remote control triggers

instantly destroying dreams of children just like your own in pakistan

بإستمع, listen

the lawnmowers buzz

زینانات, (the drones) decapitate from above

playstation assassins

modernity's madmen

so surgical and sanitary

as they abort the ambitions of the living

old ladies to babies to so called teenage crazies

aren't these 16 year old 'high value targets' merciless jihadis?

or how about penniless kids collecting firewood and scrap metal

hit'em twice with the 'double tap' tap dance

no, this is death metal

dalou children resurrect from the rubble

الصاروخ من أمريكة قتل الصبي

اتذكر السموني و كما فراس بسبوني

الشهيد من بيت حنون, martyred before dawn, buried before noon

somewhere in the omnipotent electronic night vision gaze

the truth must fade from thousands of miles away

but we cannot be swayed to forget the horror of the white phosphorous haze

from crimes cast in lead at mustashfeh al quds

to our brothers in cuba force fed for years in black hoods

blaze up the flag if you would or put the pen on paper to resist

whatever it is we persist to exist and insist

to sabotage this madness

to avenge those the world deemed defenseless

meanwhile the faceless and paperless smash and replace this establishment logic so baseless

a mass movement of the incarcerated

the nameless, anonymous

wage war within a breath

regain regions autonomous

every day insurrectionists dig tunnels deep just to have sustenance

so

if you hunger

with the prophets in exile, 160 grueling days, Samir Issawi style

strike back with those caged in a cell

choking on dusty air

living hell
